

SAVE KENT

STOP MASS HOUSING

Tens of thousands more new houses are planned to be built on our Farms, Fruitbelt and Greenfields. We are losing our food producing ability and nature at a terrifying rate. We have been given Code red for our environment because of such destruction.

WE SAY NO MORE.

There is space for 1.3 million homes on Brownfield sites. We need to change the law.

Join Faversham based protest group “Farms, Fields & Fresh air” for focussed awareness raising and action across Kent. Sign the national petition to get legal protection for our farms & greenfields – get it to 100k for Westminster. We need to show mass public pressure.
