

SAVE

OUR GREEN & PLEASANT

LAND

Hundreds of thousands more new houses are planned to be built on our Farms, and Greenfields EVERY YEAR across the UK. We are losing our food producing ability and nature at a terrifying rate. We have been given Code red for our environment because of such destruction.

WE SAY NO MORE.

There is space for 1.3 million homes on Brownfield sites.

We need to change the law.

Join protest group “Farms, Fields & Fresh air” for focussed awareness raising and action across the UK. Sign the national petition – get it to 100k for Westminster. We need to show mass public pressure.
